Does anyone know any black forums where there are English-speaking Chinese? I'm generally interested in talking to a Chinese person who sells/may start selling small electronics on eBay or other platforms and wouldn't mind starting a discreet conversation.

Hi. Does anyone know where such a thing exists? Surely they can't, they're people too, they must trade info and discuss black topics somewhere. Surely a billion and a half people can't help but create a community similar to our forums? Or maybe they don't have any kind of community like ours. I've dug through all their information security systems - the forums are complete shambles. Does anyone know where all the action is going on? Maybe some chats or BBS boards?

请问能否提供一些关于黑客话题的中文暗网论坛链接？我知道暗网和普通网络上的中文论坛，、长安不夜城、自由城以及很多像 bbs.kanxue.com 这样的论坛，但它们要么以销售为主，要么话题很无聊 零日漏洞等敏感话题的中国论坛很感兴趣。例如，像 breachforums.bf 这样的欧洲论坛就是其中之一。
